JRC sftp server

Purpose: Temporary storage for file upload

Protocol: sftp

Address: srv-ies-ftp.jrc.it

Credentials: contact Stefano

Capacity: <= 2TB

JRC ENSEMBLE System

Address: https://ensemble.jrc.ec.europa.eu/aqmeii4.html

Credentials: from previous AQMEII phases, or contact Stefano

JRC / Enviroware (Automated) File Transfer

Disk Storage

Purpose:
- Temporary storage of receptor cases before loading to ENSEMBLE database
- Exchange of gridded fields between groups

Capacity: 6 TB

Web Interface and Database

Purpose:
- Interactive analysis of receptor cases
- Selected interactive data downloads for receptor cases

Used in previous phases of AQMEII
NOT used in AQMEII4

Preparation of enform files requires model code: contact Stefano

Upload enform files

Participants

Archive local copies of raw model outputs and enform files

Browse and download gridded enform files

Browse: https://ensemble.jrc.ec.europa.eu/ensemble/pvt/aqmeii4/ (login required)
Download: wget, e.g. wget --user=your_userid --password=your_password
https://ensemble.jrc.ec.europa.eu/ensemble/pvt/aqmeii4/10700/0251/001/10700-0251-001-01-01-201601010100.ens.bz2
(can also store your password in a .netrc file in home directory and remove "--password=your_password " from the command line)
